

Project: Tower View  
Client: Lightning Developments  
Contractor: Harmonix Construction Ltd

Copper facade cladding (non structural) rest on a timber structural wall  
Made out of recycled copper, produced in rolls  
<http://www.kme.com/en/tecuoxid>

Reasons for the use of material:

1. installed to the exterior, natural oxidation occurs which provides protection and enhances the materials beauty over time.
2. requires virtually no maintenance after installation
3. withstands temperatures over 200°C without side-effects or long-term degradation
4. 100% recyclable
